

CUSTOMER: Blaine Projects
PROJECT NAME: De Korte Street, Braamfontein
APPLICATION: Façade Renovations

PROJECT DESCRIPTION

The contractor needed access to renovate the external façade of the building including cleaning, joint sealing, painting, window replacement, glazing, brick work, plastering and the replacement of air conditioning units.

SkyJacks installed 4 x 3m Standard Platforms with 9mm wire rope attached to 2-ton Tusker trollies, powered by Alpha 800 hoists suspended from a counter weighted monorail systems 20m, 30m and 45m long that enabled them to renovate the 2,850 m² façade in two months.

In addition to the installation and dismantling of the system, TSP Operator training was given to the contractors' site team..
